

Airbus is an international pioneer in the aerospace industry. We are a leader in designing, manufacturing and delivering aerospace products, services and solutions to customers on a global scale. We aim for a better- connected, safer and more prosperous world. Airbus Helicopters Polska in Łódź has been operating since February 2015. We are very successful by providing innovative solutions. Current employment is over 50 employees and is effectively increased.

Our people work with passion and determination to make the world a more connected, safer and smarter place. Taking pride in our work, we draw on each other's expertise and experience to achieve excellence. Our diversity and teamwork culture propel us to accomplish the extraordinary - on the ground, in the sky and in space.

**Currently we are looking for the candidate for the position of:**

## **Structural Designer**

Structural designer must be an open-minded person with engineering "feeling". He/ She should be able to create a design solution from an early conceptual stage till the serial production. Academic background should be merged with production-reality experiences. Candidate should be familiar with the materials used in aviation construction and its properties. Strong team spirit and communication skills are essential in multinational projects realization.

### **Tasks, role & responsibilities:**

- 3D parts and assemblies design and modeling
- Kinematic analysis of named above components
- Parts validation under the manufacturing process requirements
- 2D technical documentation creation and management

### **Required qualifications:**

- Bachelor's degree in field related to Mechanical Design. Degree in Aviation would be a plus.
- Proficiency in 3D CAD (Catia V5 is preferred)
- Language skills: English speaking, B2 level at least.
- Strong problem solving, organizational, and communication skills
- A good understanding of composite theory and manufacturing would be preferable.
- A good knowledge of aerospace technologies and products.
- Experiences related to design and production process would be beneficial.

### **We offer:**

- Stable employment based on full-time job contract
- International working environment in the dynamic company
- Access to the latest knowledge and technologies enabling professional development
- Trainings and development possibilities
- Participating in international project and international trips
- Competitive salary dependent on experience and qualifications
- Flexible working hours, home office
- Private medical coverage (Luxmed) for you and your family
- OK System card
- Life insurance PZU for you and your family
- Co-funding for meals
