

Airbus is an international pioneer in the aerospace industry. We are a leader in designing, manufacturing and delivering aerospace products, services and solutions to customers on a global scale. We aim for a better- connected, safer and more prosperous world. Airbus Helicopters Polska in Łódź has been operating since February 2015. We are very successful by providing innovative solutions. Current employment is over 50 employees and is effectively increased.

Our people work with passion and determination to make the world a more connected, safer and smarter place. Taking pride in our work, we draw on each other's expertise and experience to achieve excellence. Our diversity and teamwork culture propel us to accomplish the extraordinary - on the ground, in the sky and in space.

Currently we are looking for the candidate for the position of:

Engineering Data Analyst (ETPCD EDM1)

Airbus Helicopters Polska – part of AIRBUS, the multinational, global leader of the aviation industry – is now searching for the Engineering Data Analyst to join the Engineering Data Management team, who will cooperate with the corresponding teams in Germany and France. This is a wide and varied role that crosses many of the company's activities (analysis and specification of processes, development, testing).

Tasks, role & responsibilities:

- Enable process optimisation through digitalization
- Creation of specification for upgrading of SAP functionalities
- Testing the development of the new SAP functionalities
- Specifying data lifecycle in PDM tools in accordance with user requirements / processes
- Design innovative and lean processes to optimise costs and support digitization.

Required qualifications:

- At least a BSc degree in field of Aerospace, Computer Science, Engineering or similar
- Operational knowledge / experience in aeronautical processes
- Experience in Key User responsibility in any PLM tool (preferred SAP)
- Basic programming skills
- Good team player and ability to influence people
- Strong analytical skills
- Data analytics experience would be a plus
- Good communication skills and assertiveness
- Proficiency in English; knowledge of German would be beneficial

We offer:

- Stable employment based on full-time job contract
- International working environment in the dynamic company
- Access to the latest knowledge and technologies enabling professional development
- Trainings and development possibilities
- Participating in international project and international trips
- Competitive salary dependent on experience and qualifications
- Flexible working hours, home office
- Private medical coverage (Luxmed) for you and your family
- OK System card
- Life insurance PZU for you and your family
- Co-funding for meals
