

Participate in **EDPR University Challenge** and give yourself countless **opportunities** while putting your **knowledge into practice**.

EDPR University Challenge is an **academic competition** promoted by EDP Renewables, which seeks to stimulate universities' community by giving students an opportunity to **apply their academic knowledge to business practice** in fields of Engineering, Management, Economics, Marketing, that would relate to renewable energy.

Themes for projects to be developed:

- **Innovation:** Innovative projects which will lead to increased usage of renewable energy sources with an engineering or management approach;
- **Efficiency:** Study of technological innovations that enable increases in efficiency of renewable energy production processes;
- **Marketing/strategy:** Business plan or marketing strategy for increasing awareness of renewable energy and/or promotion of the EDPR Renewables activity in Poland;
- **Sustainability:** Environmental concerns vs. local development.

Prizes

1. **15 000 PLN** (team) and 5 000 PLN (supervisor)
2. **10 000 PLN** (team) and 2 500 PLN (supervisor)
3. **5 000 PLN** (team) and 1 250 PLN (supervisor)

Application deadline:

November 6th, 2016

You will have about 3 months to prepare your project (depending on when you register)
